

# FYR Diagnostics

Based in Missoula, MT

總部設於蒙大拿州的米蘇拉市

Biotech company with a focus on disease diagnostics

專精於疾病診斷的生技公司

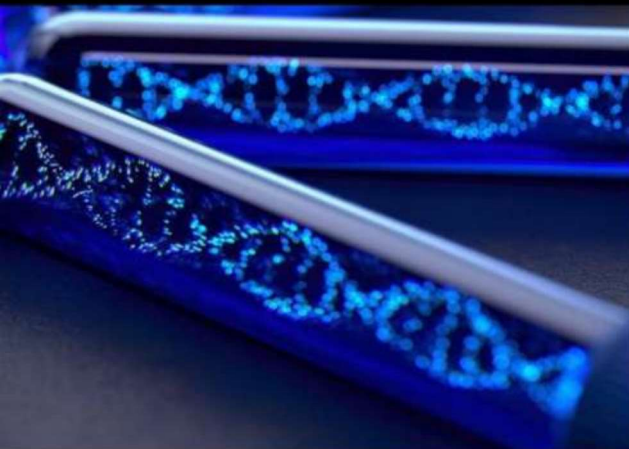

Developmental pipeline that enables results from discovery to clinical implementation

提供一站式服務，包含最初的測病檢測至後續追蹤臨床治療

CLA Laboratory built for high-complexity testing

擁有專為高複雜性試驗而設的CLA實驗室

## 次世代液態生物檢體

### Next-Generation Liquid Biopsy

我們透過不同的方法進行診斷，並開發出不具侵入性的液態生物檢體方式，例如透過細胞外囊泡 (EVs) 所進行的血液測試及其他對疾病的新式標示方法。

我們所開發的這些測試可用於疾病的早期檢測、監測病情及復發情況、以及判斷治療效能。

## Clinical Services

### 開展實驗並使其最佳化 Assay Development & Optimization

- Start to finish partnerships for the co-development of diagnostics
- Develop and validate qPCR and NGS assays
- Equivalency studies and orthogonal methodology
- "Turn-key" development and implementation of diagnostics and assays

### 臨床樣本處理 Clinical Sample Processing

- State-of-the-art CLIA facilities and expertise
- Ability to meet immediate clinical and pre-clinical needs for high-quality clinical and biopharmaceutical testing

### 追求卓越 Center of Excellence

- Processing customer samples in CLIA or non-CLIA environment
- Certified Service Provider for leading Dx companies and instrumentation
- Access to cutting-edge genomics and proteomics platforms
